Many school corporations in Indiana use vendors for their Student Information Systems. The Department of Education has made efforts to keep vendors updated about the Student Test Numbers and other aspects of the project. The initial contact with vendors on this topic occurred in early 2000 and recently updated in 2008.

Vendors are listed alphabetically and are <mark>self reporting</mark>. If there are corrections or additions needed for the list, please include all pertinent information and contact: kcarr@doe.in.gov

The table below lists the contact information for each vendor. In addition, there are two columns: 1) STN Data Transfer ready; 2) XML ready. A description of each of the columns is as follows:

1. STN DATA TRANSFER READY

This section indicates that the vendor has reported that all necessary software is in place for submitting data to the Application Center according to the department's specifications. Codes are listed below:

C = Vendor has successfully sent a comma delimited version of specified files
P = Vendor has successfully sent a Positional (fixed length record) version of this file
X = Vendor has successfully sent an XML version of the specified files

2. XML READY

To simplify data reporting, the Department is moving to Extensible Markup Language (XML) a way to reduce the burden on local schools and to improve the accuracy of data reported. To use this method of reporting will require that software for local student information systems include XML capability. XML will be implemented in phases. As information is released for a specific data request from the Department, and as vendors make the necessary additions to their software to be capable of reporting in this manner, it will be reported here. XML readiness will be reported by request. For example, the Pupil Enrollment report was accepted using XML starting in fall 2002. The chart will indicate which vendors are prepared to use XML in their software.

Vendors are listed alphabetically and are self reporting. If there are corrections or additional vendors needed for the list, please include all pertinent information and contact us by sending email to: kcarr@doe.in.gov
